

REGULATORY COMPLIANCE

EAS provides the clarity that enables clients to manufacture, distribute and sell their products in markets across the world.

We deliver information and solutions that significantly increase the chances of product acceptance and regulatory success.

Our services cover:

Evaluation of active ingredients, food additives, ingredient levels, product formulas, labelling and claims

Advice on product reformulation for compliance

Food certification requirements

Notification and registration support

Development of common product labels and formulas

Advice on regulatory strategies for market entry

Impact analysis of existing and emerging regulation on business strategies
